

# Barinder

**400 SERIES:**

**X6-CDH22R-455MR**

F Series

## Casting Types

- ▶ Aluminum Sand Casting
- ▶ Aluminum Die Casting

## Work Envelope

**Max. Payload**  
**50kg (110 lbs.)**

(casting, fixture & pallet)

## FEATURES and BENEFITS

- ▶ Compact in size and easily moveable
- ▶ Totally enclosed for safe operation
- ▶ Quick part change over
- ▶ Flexible cutting with 5 axes of motion
- ▶ Continuous positioning of casting with 4 servo axes
- ▶ 130° of tiltable servo cutting wheel motion
- ▶ 1 Main 25hp max. servo motor grinding head
- ▶ 1 Aux. milling head that can handle multi shaped tools
- ▶ Long life diamond embedded cutting tools
- ▶ Simple trace and teach programming
- ▶ User friendly with touch screen interface
- ▶ Easy program editing with FANUC MDI panel
- ▶ 99 Program storage standard, 10,000 via Ethernet package
- ▶ 360° Continuous servo radial casting rotation during cutting
- ▶ Single part clamping device

## TYPICAL APPLICATIONS

- ▶ Suited for small part processing
- ▶ Parting line and core flash finishing
- ▶ Gate and runner cutting
